English,Spanish

EDUCATION

University of Kansas , Overland Park KS—*Full Stack Web Developer (Certification)*

Johnson County Community College , Overland Park KS—*Graphic Design (2 years towards a Graphic Design degree)*

Universidad de San Pedro Sula , San Pedro Sula HONDURAS— *Communications (2 years towards a communications degree)*

PROJECTS

The Spot — *App*

This app will help you find a "SPOT"(bar,restaurant or cafe) within a 1-5 mile radius between the two users. In this project I collaborated by handling all of the UI (HTML and CSS)

AudrillaStudios — *Apparel*

In this project I was able to get a good feel on what the apparel business is like in my area and was helpful to improve my skills designing on different types of fabrics plus how to integrate your environment/community to help market your product.
